

# **Project Title: Coco Chanel Website**

**Erin Noh (Creative Director)**

**Dongyoon Lee (Designer/Developer)**

Dongyoon and I decided that there will be more of a focus towards Coco Chanel's legacies/impact. Although there will be one page of information with Chanel's early life and career, the other tabs will all be about her legacies and influence on the fashion world. We both agreed that a simple, minimalistic, and black and white aesthetic would work well with the subject matter.
